U.M.C. SPECIAL COVERAGE

Are you ready to fight it out in the ring for fortune and fame? This was the advert Odyssey Interstellar put through Spectrum weeks ago. A simple question which, unexpectedly, resonated more than anyone could think.

The First championship fights was on January 19th and was a blast. Why? Not only because it was something which drawn people from around the UEE to attend and participate but also because the UMC was something truly unique. Something which has deep roots in every star citizen of the 'Verse.

Sponsored by known organizations, fight clubs or fighting leagues, fighters got to demonstrate one thing in particular that, in these days, might be important for every star citizen out there: we're not our job, we're not the ship we fly, we're not the contents of our UEC wallet. No. We're more than that. We're of flesh and blood and of a strong will.

Capable to live in the 'Verse like real space being and able to fight and defend against almost everything.

Why did Odyssey Interstellar decide to create the UMC? Well the simple answer is to bring illegal fighting in the verse out of the alleys of ArcCorp, the slums of Hurston and back water stations like Grim Hex into legal and safe venues so they can be enjoyed for what they are, contests of skill and endurance between two professional athletes. Last year the Executive Board at Odyssey Interstellar decided to leverage the companies significant capital toward a cause that I am sure every citizen in the 'Verse can get behind, supporting the men and women who risk fines and even imprisonment to compete in a sport that they love with all their heart.

It's been a long legal road for Odyssey Interstellar to obtain the first legal fighting license issued in the Stanton system but for us it's been worth it. And, it's just the beginning. We are really excited about the future of the UMC and are looking forward to bringing more action to the citizens of Stanton and beyond. As the UMC grows we want to involve even more UEE citizens and our friends outside the UEE. With that in mind Odyssey Interstellar would like to invite others to invest in the UMC or host events under our license as Associate Producers so they can be at the forefront of the legal fighting movement with Odyssey Interstellar.

And about the future of the UMC ?

We've already had our inaugural event this month and we are planning on hosting at least five more throughout the year, including a huge championship fight at the end of the year to decide who the "Champion of the 'Verse" is. We are even having a 'real life' championship belt made up to award the top contender at the end of the year.

I should also say that we are encouraging other organizations in the community to get involved and host UMC events. We are planning on just doing five more for the year but we want others to get involved as Associate Producers so even more fights can be held with even more of the community getting involved.

Any fights hosted by Associate Producers will also count towards determining who will win the belt at the end of the year. So the more others get involved the bigger the UMC can get and the more community driven content can be offered to keep people coming back.

Aepophis

ODYSSEY INTERSTELLAR

Loyalty, duty, respect, selfless service, honor, integrity, personal courage. Seven qualities that define best the men and women that are part of this organization. All gathered around one goal: Success. Whether it is personal or global success, the solidarity in this corporation is such, that any of its member has the same importance and is treated equally to his peers. Whatever their job, whatever their rank, each member is supported the same way and can find in Odyssey Interstellar a very solid structure in which he can bloom and be useful.

An organization that believes in the wealth, success and happiness of its members.

LOCATION

Somewhere above Hurston, aboard The Nyx, an Origin 890 Jump that belongs to Odyssey Interstellar fleet.

The Rendez-vous point was set on Everus Harbor where a shuttle specially chartered for the event came to pick us up and take us aboard the ship.

We couldn't expect less from this ambitious organization than this huge and luxurious vessel.

A WORD FROM THE WINNER

Hello Daddy Chungus and first of all, congratulations! Can you give me your impressions Daddy Chungus? What does it feel like to be the first winner of the UMC?!

It feels awesome! I really didn't expect to win at all, but it did feel like I'd been training my whole life for the moment. My key to success had to be the cold shower I took that morning, it really kicked my butt and got me pumped up. I'm really proud to have represented my org Odyssey Interstellar and my fellow people "Chungas". I plan to hold the belt for a while so anyone looking for a fight can get it!
